MOTIONS AND RESOLUTIONS

Mr. Leonard presented

No. 3713.

Whereas, The Pittsburgh Central Labor Union, in endorsing the Democratic candidates for Council, attached a rider expressing the desirability of abolishing secret sessions of Council; and

Whereas, Such secret sessions are contrary to the fundamental principles of democracy especially when citizens assert, "If members of Council have nothing to hide, why do they meet behind closed doors?" Now, Therefore, be it

Resolved, That all formal and informal meetings of members of Council and all conferences with public officials and others be open to the Press and the public, except such meetings as are called by the leaders of the Democratic and Republican parties which can be termed caucuses of members of Council and such meetings as the President of Council certifies should be conducted in executive session in the public interest.

Which was read.

Mr. Leonard:

Mr. President: I realize that the first line of this resolution would be open to a certain amount of criticism but I am putting it on this basis: I have been informed by the people of this organization that after all they represent the views of people of the City of Pittsburgh, whether they be organized workers or whether they be unorganized workers. They feel, to a certain extent, that they are the views of the working people which consists of the little people in this great metropolitan City of ours. In discussions with them, they point out that the membership of people that belong to the American Federation of Labor of the City of Pittsburgh—I am only speaking of the City of Pittsburgh and I am only speaking of conversations with them, that they represent or they have members of their organization in the neighborhood of fifty thousand taxpayers in the City of Pittsburgh, real estate and otherwise and without exaggerating. This question has been asked of me from time to time, what my position as a member of City Council, what is my position since I went through a campaign and used the pri-

vate meetings and policies behind closed doors of City Council. I want to make myself clear that as long as I am a member of this body I will not surrender that right. Mr. Chairman, this has been quite a controversy for the past couple of years. It is not, in my opinion as a member of this Council, the proper thing. That has never been in the history of the City of Pittsburgh. I don't say and never have said that anything is wrong in the Mayor and City Council meeting to discuss certain problems that may come up in the City of Pittsburgh. I am a believer that it is a good administration that does that when the time requires. I am a disbeliever that the Legislative branch and the Administrative branch and a lot of departments have to hold a meeting before there is a Council meeting when all the members are of the same political party and then decide their issues and meet with their department heads or citizens in the closed sessions where the public newspapers are locked out and where the public is locked out. I am a believer and I don't think it is right that you do that, and every bill that is introduced in this Council has to be taken up before it is introduced and any controversial issues taken out of it. Shortly we will be sitting on the City budget. That will amount to quite a large sum of money, which every year it does, in the neighborhood of thirty some million dollars. I don't think it is fair that everybody has to meet in the private conferences with the Mayor and the City Council before we dare set a policy when one is the administrative branch and the other is the legislative branch. That has been a question, but the thing that disturbs me and this is not the place to make a political speech, and I am not attempting to make any kind of a political speech, but I am trying to speak of the stand in behalf of a lot of people that are citizens and taxpayers and kind of agree with that stand. I said in the Primary Election and I said prior to ever making my mind up to be a candidate for a public office and I have repeated that there is one group of people controlling both of the political parties within the City of Pittsburgh. I still say that is the question.

The campaign is very interesting on both sides. I don't see anybody trying to attempt to speak for the little people that pay the bills on both sides. I realize that the newspapers are very much favoring the so-called Conference on Community Development, which I am ready to say is doing a good job with what they are interested in but coming back to the question of the so-called little Joe who is going to pay the bills, and nobody is hearing that from either political parties and when anybody says anything some of the newspapers lambasts the ears off of them because they have the nerve to stand up. Their attempts to ask the question about the Conference on Community Development, I will ask plenty of questions and have asked them, but the point I am getting at, I think you gentlemen should start taking this into consideration with all this big improvement program that is going on; the City budget that is coming up, thirty-five million dollars the Pennsylvania Railroad is going to spend, which we all agreed is a good thing for the future of the City of Pittsburgh. But gentlemen, this agreement that the future generation that both political parties are in agreement on, but there is still people who are going to inherit this future debt. Neither political party is bringing that into the issue. I, as a member of Council, have no voice. The only price I have is to do my duty as I have always seen fit in the Council Chambers of the City of Pittsburgh and not to be afraid to speak up for little Joe. That is the only interest I have as one member of nine representing the people of the City of Pittsburgh, and the little people are the majority of the people of the City of Pittsburgh.

I won't push for you passing or defeating this resolution, but I do think this resolution is open for discussion. I want to point out the things that I think are wrong, and the people who pay taxes think are wrong. I received my usual letter probably about Saturday, and it reads: "The members of Council will meet in conference with the Mayor on Monday morning, October 17th, at 11:00 o'clock, in the Mayor's Conference Room, and the regular meet-

ing will be held on the same day at 2:00 o'clock, P. M. Yours truly, James W. Patterson, City Clerk." This thing has gotten down so far that this is the only thing you receive. I remember when you held these star chamber sessions and there was going to be a meeting you at least said what was going to be discussed on the agenda when you did go in there with the executive branch. Today, the City Controller, the Law Department and all of you meet and practice a policy that is not a fair shake to the citizens of Pittsburgh. I realize what is doing that. It is because our newspaper system agrees with the redevelopment of Pittsburgh, and anything that seems to be done is perfectly all right. But you have cut this down to one piece of paper, and if a man who is elected by the citizens of the City of Pittsburgh refuses to walk into that room, then he is deprived of the things that are going to be taken up in that room. I know that sometimes it might be embarrassing to the President of the Pennsylvania Railroad to come out into the Council Chamber and discuss things with the public, but I know they have gone in there and I know the newspapers have not been permitted to go in and cover those meetings and the result is that Little Joe doesn't know the things that are happening. If I come in here with my next door neighbor and he wants to get a street widened or a street fixed or has trouble with his water line it is immediately arranged that we give him a hearing in City Council but when some of the big boys come around they are too sanctimonious to rub elbows with the little fellow who comes in and listens to hearings. He gets a private hearing.

Let's look to the future. We are all of one party and elected of all one group. We have never had anything to hide. Why do we continually need to sit down with all the administrative branches behind closed doors and discuss the issues? This is serious and something should be done about it. If this is going to be the policy then the people are entitled to know that is the policy from here on. But let's discontinue giving the people weasel-worded information. The only things

that are coming out is the great future of the City of Pittsburgh and nothing about what it is going to amount to and who is going to pay it. Both sides agree to this, the Republicans and the Democrats and the Conference on Community Development, but in back of it all is the little guy who owns a home and pays the taxes. The true story must be told the people. As far as the Central Labor Union is concerned, I notice in their resolution that is one of the things they ask for—why do you bring up the question of secret session in City Council? The only answer is what I am saying here. I said that to them and I am repeating it all on the floor. Maybe I am wrong, but I think I am right. As long as I am a member of this body I will not be afraid to speak up for Little Joe.

Mr. President: I can move for the adoption of the resolution or I can let it ride until tomorrow or you can pass or defeat it right here. But if I were you men, I would give this secret policy, that is what it is—a little more consideration before I would continue and let it be an issue whether the people want it or not. If that is your policy then it ought to be in your platform.

The Chair:

I agree with the Central Labor Union that secret sessions of City Council are illegal and reprehensible. I will not tolerate them. So long as I preside over this Body every decision affecting this City or its people will be made openly and publicly. They have always been made that way during our term of office.

I had hoped that City Council had heard the last of this kind of talk. After all, the election is over and there is no reason for Mr. Leonard to keep on making his Statue of Liberty plays in this Chamber. But there he is, back again with the same old third-rate hammy performances of pretending to be the only member in City Council who pleads and struggles and bleeds for Little Joe. Every Councilman knows that he is really putting on this performance for the benefit of Big Ed and that Little Joe is being kicked around as a political football. A person

would think that the shallowness and insincerity of this political strategy would have become so apparent to him and to everyone else that he would be personally embarrassed to keep up that line of talk.

How thick can human skin become? We know very well what he is doing. We know. We have watched him here in Council for many years doing everything he could to make himself look good with Little Joe and organized labor, and doing everything he could to make Mayor Lawrence, Mayor Scully and the members of Council look bad.

My patience is running out. I got pretty tired of an immense, friendly, affectionate St. Bernard dog that used to knock me down with his big strong paws when I was a little boy, and I am getting pretty tired of Mr. Leonard.

In his heart Mr. Leonard knows that the real reason why he does not attend our conferences is that he does not have the guts, the knowledge and the ability to confront Mayor Lawrence in face to face debate. It is easy enough for him to come to City Hall—and not too often at that—because his record of attendance is disgraceful—at 2:00 o'clock on Monday afternoon or 2:00 o'clock on Tuesday afternoon, to manslaughter the English language in a demagogic speech. This manslaughter is later reduced to high misdemeanor when our clerks have had a chance to give his expressions some form of coherence. But at best they are terrible, dreary, insincere and shallow utterances. They start nowhere and get nowhere. In all my time in Council I seldom heard Mr. Leonard make an intelligent motion before this Body. He talks and talks and talks. He says the same thing again and again and again. Then he sits down, leaving the other eight Councilmen looking at each other and asking themselves, "What action does this man want us to take,"

Mind you, I do not blame the officers and members of the Central Labor Union for asking the Mayor and City Council to abolish secret sessions. You must remember that this organization got its information on the subject from Mr. Leonard. Mr. Leonard is no friend of anyone in this Council and he is no friend of Mayor Law-

rence. You can wager that the description he gave of our conferences was a pretty bad one.

If I had been an officer of or a delegate to the Central Labor Union I am quite certain I would have been extremely angry with Mayor Lawrence and with the members of City Council after I had heard Mr. Leonard give his explanation of what is going on in City Hall.

But it seems to me that if I had been present when Mr. Leonard was uttering his slanders I would have kept telling myself that here is a man who stated that a tax on automobiles was going to be imposed by City Council. Mr. Leonard said that. We await his apology.

Mr. Leonard told the Central Labor Union and the people of Pittsburgh that City Council and Mayor Lawrence were responsible for the \$5.00 School Head tax. We await his apology.

Mr. Leonard told the people of Pittsburgh that City Council and Mayor Lawrence were going to impose a wage tax. We await his apology.

It was untrue and the Central Labor Union should have known it was untrue because that organization has in its files a formal resolution passed by this Council, formally pledging itself against any such tax. The same thing is true of the sales tax. We pledged ourselves to oppose it. Mr. Leonard knew we had pledged ourselves to oppose it. Yet he had the audacity and plain downright brazenness and insincerity to tell a lie about it. We await his apology.

Surely there must have been somebody in the Central Labor Union who knew Mr. Leonard had been false and deceitful in these matters and that, therefore, he could possibly be false and deceitful about this subject of secret sessions.

Understand me, I am not irritated with Central Labor Union. It is a good body, serving a good purpose. I am irritated with Mr. Leonard and I have every right to be irritated.

How long can a man strut this kind of stuff in City Council? How long can he use our public hearings to turn on the charm with the citizens who

come here while other Councilmen take the raps?

How long can he wander through the audience promising everything and doing nothing?

If the delegates and officers of the Central Labor Union really knew Ed Leonard, the organization would not be so quick to sponsor his ideas. Does the Central Labor Union know that Mr. Leonard has done less for Organized Labor than anyone in City Council? And a great deal less than Mayor Lawrence has done for Organized Labor?

Does the Central Labor Union know that Mr. Leonard makes a habit of being absent when anything affecting labor might turn into a controversial issue?

Does the Central Labor Union understand that there have been some occasions when labor troubles and difficulties arose and that Mr. Leonard found it very convenient at those times to leave the City and to stay out of the City until the trouble had been averted?

Does the Central Labor Union know that time and time again delegations from labor have appeared before us to present their case and that Mr. Leonard was not interested enough to attend? Why, it even occurred that the State President of the American Federation of Labor broke all precedent to appear in the City Council on behalf of the City Firemen. Council Chamber was crowded to the rafters. The one man who holds himself out in City Council as being the fair-haired boy of Organized Labor, eager and willing to die on the barricades for it, was not present. Mr. Leonard was absent. He can give you a reason for being absent. He can always give you reasons for being absent.

Mr. Leonard is doing pretty good—not that I blame him for that—because I suppose the Little Joes of Miami Beach and Hollywood are badly in need of assistance, too.

Little Joe also needs him in New York, especially when there is going to be a championship prize fight that night.

I am trying to say, in a friendly,

sociable way, that Mr. Leonard does not come up to my idea of being a good Councilman or of being a good representative of Organized Labor. I just wonder, when I hear him here in Council Chamber, patting himself on the back over the wonderful things he is doing for Little Joe, what Tom Gallagher is thinking.

Tom Gallagher never mentions it, except where he properly should—on a campaign stump—but he was in the front line trenches fighting for Little Joe when Ed Leonard had on his bottom the impress of a pot.

I, myself, in the State Senate at Harrisburg, gave everything I could and everything that was asked of me to Organized Labor at a time when Ed Leonard was a duly recorded member of the Political Party that was opposed to everything that the Liberal Party of Franklin D. Roosevelt and David L. Lawrence stood for.

I look at these eight Councilmen in front of me, and there is not one of them who has not done more for Organized Labor and Little Joe than Mr. Leonard has. He is Johnny-come-lately.

The fact that he has grabbed off a Vice Presidency of a great International Union at a fat salary and that he travels around the country in regal style, representing Organized Labor, with all expenses paid and a handsome per diem stipend, does not make him any more exalted, in my opinion, than Mr. Demmler, Mr. Duff, Mr. Gallagher, Mr. McArdle, Mr. Stewart, Mr. Weir and Mr. Wolk; all of whom have done more to give Organized Labor the dignity and stature which it now holds, than Mr. Leonard ever did.

Now that I have these things off my chest, I will come back to the resolution which Mr. Leonard has presented. It covers a subject which Mr. Leonard has made an issue in his campaign. He received and still receives newspaper publicity which is not unfavorable.

The traditional and hitherto respected and admired practice of elected officials conducting themselves as business men has overnight become sinister and bad. Guff. It just happens that there is another tradition—a tra-

dition that no metropolitan newspaper should be associated with that gang at City Hall. No one expects a newspaper to make as much noise when City Hall is right as when City Hall is wrong.

Therefore, we can expect our local newspapers to support Mr. Leonard in his less phony aberrations. Private conferences is one of these. You have only to change one word and it comes out "secret conferences."

You have only to be an ambitious politician and it comes out "Iron Curtain."

Right there knocks opportunity and we cannot hope for a fair, unbiased expression of editorial viewpoint on this subject until every aspect of City business is open as it was in the days of McNair. Who wants that? Mr. Leonard should withdraw his resolution. It is false and slanderous in its content. We have never held secret sessions of City Council and we never will. If any of you ever try to do it you can get yourselves another President.

I abhor the iron curtain. Every American does. Mr. Leonard's iron curtain is a fake and a phony.

He can come to our conferences any time he can bring himself to the point where he has the nerve and the courage to do it. He can listen to what we have to say in the conferences. No one is bound by the discussions. No one is bound to secrecy. Mr. Leonard has the free privilege of immediately after talking to the newspapermen and telling them all the news.

Where then is Mr. Leonard's iron curtain?

The majority of the members of City Council are doing their best to give this City a business-like administration. We are entitled to the same advantages that is enjoyed by business. Business leaders have private conferences. Labor Organizations have private conferences. The President of the United States has private conferences. They help immensely in our understanding and disposition of business, and are authorized by an Act of Assembly.

There is not one scintilla or speck of illegality or impropriety about them.

If Mr. Leonard thinks there is, let him institute criminal proceedings and he will be the laughing stock of this City.

I am confident that the ordinary citizen of Pittsburgh understands very well the sham play and hypocritical performances that Mr. Leonard is putting on and I am confident that City Council will not approve this resolution.

Mr. Demmler:

Mr. President: Is this resolution before us for discussion?

The Chair:

The resolution is open for discussion.

Mr. Demmler:

Mr. President: As I read the resolution it has reference to secret sessions of Council. I agree with you, Mr. President, that there has never been a secret session of Council. If there were secret sessions I would refuse to attend. As I have often stated on the floor of this Council that the moment that these conferences become caucuses, then I will refuse to attend such caucuses, but as long as they are conferences at which all members are invited to attend I will attend. I refer back to November, 1947, when the question of additional taxes was before this body, I stated my position in these conferences, and I stated them in open session but the Council voted against them. Very little support did I receive from anyone in my stand. But I still say that no one is bound by majority decision in these conferences, and I could not vote for this resolution.

Mr. Leonard:

Mr. President: I would like to disagree with you on one important thing. You say that anyone can fool the people. I disagree with you. I say, you cannot fool the people. You say I am making a distortion of the facts. To me that is very laughable. At eleven o'clock this morning there was a meeting in the Mayor's office and it was City Council, and only you and

God know who you met with there. You go in there as a body and see many people and meet with the Mayor. You are the Legislative branch and he is the Administrative branch. You show me something that you know that was going on in that meeting. Can you?

The Chair:

City Council meets as Committees on Tuesday of each week. Each member of City Council is Chairman of a Committee, but in reality and in weekly practice the nine members of Council are present at the Committee meetings. We are each provided with a calendar of the day's business, and as a bill comes up, which, in the opinion of any member of Council, requires some discussion with the Mayor, a motion is made that that particular bill be referred to a conference with the Mayor. That, in the main, is how bills get on the agenda for a conference, which Mr. Leonard is discussing. It very often happens that some project affecting the City of Pittsburgh is so extensive in its scope that premature publicity would be hurtful to the City. I could cite an instance and there are many. The Jones and Laughlin Steel Corp. contemplated expansion of their plant, in the amount of forty-two million dollars, and in the opinion of the Directors of the Jones and Laughlin Company a conference with the Mayor and with City Council would be helpful rather than initiate the project in a public discussion. So, very often citizens of Pittsburgh, themselves, request these conferences and it is out of courtesy to them that we grant those conferences. Not only business men request this kind of conferences. Union organizations, and you must remember that Mr. Leonard is International Vice President of a great union. Very often Union organizations request a conference with the Mayor and with City Council, and in accordance with our routine, out of courtesy to them, we grant them a conference. Last Tuesday, we discussed very briefly, a suggested improvement of a street in the Fifteenth Ward, and I moved that the matter be discussed with the Mayor and we did so. It was discussed this morning. In other words, I am

trying to say that if Mr. Leonard really wanted to assist this Administration in giving a business-like administration, he would keep a check and would know what would be discussed with the Mayor. Now that I see that he has renewed his interest I will keep him informed what is going on here. Living up to his duties as a Councilman, he could easily find out what the problems are in City Council and those are the problems discussed with the Mayor.

Mr. Stewart:

Mr. President: I am the only member of this body who has served both as a member of this body and as head of a department of the City government, and as you know, I was City Solicitor from December, 1938, until I entered the Army in 1941, and during that time Cornelius D. Scully was Mayor of the City of Pittsburgh. I undertook to try to see what could be done to bring about a more harmonious relationship between the Mayor and the City Council. One of the things which various members of Council, including Mr. Leonard, urged was that conferences with the Mayor be held at regular intervals. Council felt and I think that the then Mayor came to feel that this lack of conferences was an important factor for what seemed to be a serious lack of cooperation between Council and the Mayor. Members of Council said that there was not the opportunity for meeting with the Mayor and the various department heads to discuss things with Council so that Council might know their problems and they, in turn, might know Council's problems. Mr. President, I believe as you do, that the weekly conferences which we have with the Mayor, sometimes more than weekly, are one of the most effective instruments we have for efficient operation of the business of the City.

Mr. Leonard:

Mr. President: I have said and I repeat that I believe that the Mayor, no matter who he may be, the Council, no matter who they may be, make a terrible mistake when they don't sit down and have a discussion now and then on some major bill that may

come up. This is a position that it is not a question of conferences it is a question of policy, which you, Mr. President, just made very clear. Jones and Laughlin don't come in here every Monday and Jones and Laughlin never appeared in this Council Chamber and this program has never been laid in front of the people outside of high-price press agents releasing stories, that I am surprised some of you Councilmen didn't know anything about until you read it in the newspapers. That is the policy. In your statement, which is your prerogative, you say union organizations meet with you. I can tell you the ones in that resolution—they said they don't want to meet in secret with anybody, that the Trade Union is open and above board and anything they have to discuss, they will be glad to discuss right in your Council Chamber, and in particular this session of the budget.

I don't want to go into this thing too far. I think you would agree, since your statements that these secret sessions, you admit they are secret sessions. That is the way I feel about it. As you said, you are not running for anything. I am not running for anything. I am eliminated but I do want to reiterate what I have said, that I am still in here and I am going to see that the little people get the things brought out in my humble way and not have it released by high power press agents. I will still be here as a citizen and still be a member of City Council and will still speak for Little Joe when I think he is not getting the true picture. I feel no different today than I felt this time last year. That is my belief. My belief is that you are wrong in setting a policy in City Hall that you have got to meet with the department heads and have got to meet with the administrative branch, you as the legislative branch. If I am wrong about it, then both parties should put it in the campaign platforms so the people would have a chance to decide their issues. I am a Democrat and believe in the principles of the Democratic Party, and the principles are open conferences, openly arrived at.

The Chair:

What is your pleasure on the resolution?

Mr. Leonard:

Mr. President: I move the resolution—I wanted to get the feel, whether to push for the adoption of it today, or sleep on it over night and let it come into Committee tomorrow.

The Chair:

It is your resolution.

Mr. Leonard:

Mr. President: I am trying to get the consensus. I will move for it to be discussed in Committee.

The Chair:

I don't want to prolong these discussions over another twenty-four hours. Will you move that the resolution be approved now?

Mr. Leonard:

Mr. President: Maybe it can't be decided in these ten or fifteen minutes here. Maybe there might be some things that some of us want to point out tomorrow. If you want to take a vote, it is all right with me. If it goes to Committee it is perfectly all right.

The Chair:

What do you want to do?

Mr. Leonard:

Mr. President: I haven't made a motion.

Mr. Stewart:

Mr. President: If there is no motion, it automatically goes to Committee.

The Chair:

I don't declare the policy of this Council, the nine members do. I am going to vote against this motion.

Mr. Leonard:

Mr. President: There is no motion.

The Chair:

We will send it to committee.

DEPARTMENT OF PARKS AND RECREATION

October 29, 1949.

Committee on Finance

City Council

City of Pittsburgh, Pa.

Re. Council Bill No. 3667.

Gentlemen:

The Department of Parks and Recreation has been requested to make a recommendation on Council Bill No. 3667, Resolution accepting the offer of Robert B. King to convey to the city, for park purposes, his residence property on Negley avenue, and wishes to report as follows:

1. We believe that the acquisition of this property is highly desirable for the future recreational facilities for people of this area of the city. At the present time the people who live on either side of North Negley avenue, or those in the vicinity of Stanton avenue, and in the Morningside district, are isolated, either by streets or ravines, from the major portion of Highland Park, for either passive or active recreation uses. These new recreational facilities are scheduled to be developed along the Heths Run and the Hill Road fill. Preliminary plans on this development were completed by the old Bureau of Parks in 1939, and these plans are on file in our office.

2. The Department of Parks and Recreation is not prepared at this time to make a recommendation regarding

the use of the buildings. In the past residences conveyed to the City have been used for adult recreation centers, such as the Marshall Home at Fifth and Shady avenues, which has developed into the Arts and Crafts Center; the Alan Scaife Residence on Shady avenue, which has developed into a workshop of the Arts and Crafts Center; and the Mellon Garage, which is now operated by the Pittsburgh Garden Center. It is very probable that the King Residence may serve some real purpose, however, it cannot be determined at this time.

Very truly yours,

Howard B. Stewart,
Director.

Which was read, received and filed.

No. 3758.

DEPARTMENT OF CITY TREASURER
October 26, 1949.

Committee on Finance of Council
Pittsburgh, Pa.

In Re: Bill No. 3697.

Gentlemen:

This office made a study of the Louis Minsky matter to ascertain the facts earlier this year when his attorney made demand for over \$400.00, which he alleged was due to Mr. Minsky and the following information was discovered:

In 1947 Mr. Minsky purchased the property through the Department of Lands and Buildings, and a deed was

prepared and dated August 1, 1947. A defect in the title was discovered and proceedings were instituted to clear the title, and the deal was not closed until October 28, 1947. Nevertheless the Department of Lands and Buildings collected the rent for the premises during the months of November and December at the rate of \$83.33 per month.

On April 1, 1948, Mr. Minsky paid the City and School taxes for five (5) months of 1947 at the rate of \$32.65 per month of City tax—or a total of \$163.25. He was obligated under his agreement to pay from date of delivery of deed and he should have been charged with \$65.30.

Mr. Minsky is, therefore, entitled to refund for two (2) months' rent at \$83.33 per month, or \$166.66, and three (3) months' taxes at \$32.65 per month, or \$97.95—making a grand total of \$264.61.

The School Board has been advised on the refund of school taxes for three months at \$13.71, or \$41.13.

Very truly yours,

James P. Kirk.
City Treasurer.

Mr. Leonard presented

No. 3764.

Whereas, The City of Pittsburgh in seizing the King property for an opera site and arranged to appropriate the sum of \$500,000.00 as its initial share of the cost of the project; and

Whereas, The Steel Corporations are on strike against the President's fact-finding board and are striking against the steel workers who are ready to abide by the recommendations of that impartial board; and

Whereas, This strike of the steel barons against the people of this community is causing widespread suffering among families of workers; Now, therefore, be it

Resolved, That the Council of the City of Pittsburgh appropriate the sum of \$500,000.00 originally planned to

be appropriated for a civic opera project, for use by the City to provide food, shelter, coal, medicine, and other necessities to families of steel workers thrown out of work; and be it further

Resolved, That the President of Council appoint a committee of three to consult with representatives of the Edgar J. Kaufmann Charitable Trust as to the possibilities of it matching the City's appropriation for the relief of these families.

Which was read and referred to the Committee on Finance.

Mr. Leonard:

Mr. President: On September 19th a resolution was introduced in City Council by myself asking the Director of the Department of Public Safety to make a report to this council. This resolution was passed unanimously, and I don't think that the City of Pittsburgh should permit any department head to ignore a mandate of City Council without making a report back.

It is six weeks now and there is no report made on that resolution. The number of the bill is 3487. I might ask that the Director submit a report or a partial report to the Committee on Public Safety tomorrow in Committee.

The Chair:

I had in mind the resolution we passed in Council and I had in mind the length of time since we took that action. I spoke to Director Fairley about ten days ago, and he told me he had turned the matter over to Fred Good, who is Inspector of Detectives, and Inspector Good was about ready to file his report when he was taken sick. I got Fred Good on the telephone,—he is in the West Penn Hospital—and he said he was about ready to make his report and would make it just as soon as he got back from the hospital.

Mr. Leonard:

Mr. President: Then there is nothing wrong in my asking for a report from Director Fairley, and I will re-

quest that report tomorrow in Committee meeting.

Mr. Gallagher moved

That the Minutes of Council of

Monday, October 24, 1949, be approved.

Which motion prevailed.

Mr. Weir

Mr. President: It hurts to have to vote to throw away \$3,000.00 of the City's money at any time. It hurts worse when you think of the many valuable ways in which this money could be used in next year's budget.

Yet, that is just what we have to do in voting for Bill No. 3720, which provides money for recording our Zoning Ordinances and Maps.

We can't escape this because the Legislature has "put a gun at our heads" by means of Act No. 400 of 1949, which would invalidate all of our Zoning unless these Ordinances are filed in the Recorder of Deeds' Office.

No one who is in his right mind will ever look up our zoning in the Office of the Recorder of Deeds, because the information can be obtained easily and accurately in two different offices in the City-County Building.

Both of these offices have capable employees who display the maps and Ordinances and explain the zoning to the public.

On the other hand, if you did go to the Recorder of Deeds' Office, you would have to be accompanied by a lawyer and a civil engineer to interpret

the Ordinances.

The Act of the Legislature which compels us to waste this money is a shocking example of the "cities be-damned attitude" of rural legislators and an eloquent argument in favor of home rule.

On one hand, they deprive us of our fair share of the proceeds of the gasoline tax, and on the other hand order us to increase our expenditures.

Sometimes, as in the present case, this seems to be done deliberately and contemptuously.

I want to make it clear that the Recorder of Deeds of Allegheny County did not ask for this legislation. It should also be known that Representative Brandon attempted to have it amended to exclude Second Class Cities and was supported in his efforts by the Allegheny County delegation, regardless of party. They also voted against it on final passage and should be commended.

It is hard to understand why this "boondoggle" should have been forced on us and it is important for the people to know that it is not the fault of any public official of this city or county.

Mr. Gallagher:

Mr. Weir, do you have knowledge who was the sponsor—who was backing that bill when it was presented to the Legislature?

Mr. Weir:

I have by word of mouth, but I don't wish to take a chance on saying who it was.

Mr. Gallagher:

I thought it may have been done deliberately to make the City Administration look bad.

Mr. Weir:

It was not introduced for that purpose, but when an effort was made to amend it was pushed aside.

And the resolution was read a third time and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Demmler	Weir
Duff	Wolk
Gallagher	Kilgallen, (Pres't)
Stewart	

Ayes 7. Noes none.

And the bill was read a second time.

Mr. Leonard:

Mr. President: On Bill No. 3834 Redevelopment of 16th Ward, I would like to have an explanation to clarify it. I realize Council is satisfied that adequate provisions will be made to rehouse the people without undue hardship.

"Whereas, Council is of the opinion that the said proposal and Redevelopment Contract contained therein are in the best interests of the residents of the City of Pittsburgh and desires to approve the same."

I don't know, I think that should be clarified for the record. There is no doubt a little later on, although some of these things came out in the hearing we held, but the bill has never been discussed and in my way of thinking it was not made very clear in the hearing.

Mr. Stewart:

Mr. President: I believe it was discussed in Committee. In any event, the proposed contract with the Redeveloper has been furnished the members. But I think, as Mr. Leonard suggested, it might not be a bad thing to have it mentioned in the record.

With respect to the matter of rehousing those who may be displaced as a result of this redevelopment, of course the Urban Redevelopment law requires that Council satisfy itself that adequate provisions have been made for that purpose. The provisions that have been made are these: The Redeveloper binds itself to secure rehousing for every single person who is displaced as a result of this improvement. So, it seems to me, Council has the best assurance it could have because of this commitment which the Authority naturally will see is lived up to because it is one of the obligations of the Authority.

We have therefore the situation where people who own property there won't have to look to their own devices to get another place necessarily. The Redeveloper has undertaken to see that they do get relocated and the

same is true with tenants.

As I remember the language it includes an undertaking to see that they get houses within an area reasonably close or reasonably convenient to their employment, which is the reason that many people live in that area, because it is convenient to their employment.

It seems to me, Mr. President, that unusual attention has been given to this important requirement of seeing that the people affected are rehoused.

It seems to me that this Council should and can adopt this ordinance which constitutes our acceptance or our expression of satisfaction of what has been done in that connection. I don't know whether that is what Mr. Leonard has in mind.

Mr. Leonard:

Mr. President: Then there is another question in Section 2, "That any Ordinance or part of Ordinance conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance."

Mr. Stewart:

Mr. President: That is the thing that is put on every ordinance. In this case it is so much surplusage.

Mr. Leonard:

Mr. President: How much does the City waive in the right of Eminent Domain when it turns those powers over to the Redevelopment Authority?

Mr. Stewart:

I don't know what you mean. The City isn't repealing anything.

Mr. Leonard:

If it repeals its present bills on the books.

Mr. Stewart:

I don't see that this affects anything. This isn't relating to anything else.

Mr. Leonard:

In that particular area. This Ordinance is confined to this one project.

Mr. Stewart:

That is right.

Mr. Leonard:

Does the City itself, take the right of Eminent Domain out of its own hands?

Mr. Stewart:

No, not by this ordinance. I don't know what you have in mind but if the Urban Redevelopment Authority condemns any land and it is hoped they won't, no other public body can exercise the power of Eminent Domain for the same property. That is the only thing I see would be involved.

Mr. Weir:

Mr. President: I might suggest for Mr. Stewart's consideration possibly the offering of an amendment to the first Whereas clause to make the Ordinance a little more self-sustaining. For example to insert after the first sentence a reference to the contract. I think it would make the ordinance a little more self-sustaining in the future.

Mr. Stewart:

Mr. President: I don't see any reason to amend it. I don't want to be obstinate but I don't quite understand what Mr. Weir refers to. The Urban Redevelopment law provides a procedure the Authority goes through. I don't see the point in it. What is it you want in there?

The Chair:

City Council is voting on this bill under the confidence that the Jones and Laughlin Company and the Urban Redevelopment Authority will satisfactorily house the people whose homes are being affected by this project. I agree with Mr. Stewart that we in Council cannot do anything stronger than that. It will all be made a matter of contract later.

Mr. Weir:

Mr. President: That is the very thing I am pointing out, it won't be contracted later; it is being contracted now. And I am saying this ordinance might have pointed it out a little clearer.

Mr. Duff:

Mr. President: Certainly, it seems to me there was adequate notice when

the bill was written. Doesn't the proposal contain the record?

Mr. Stewart:

That is right.

Mr. Leonard:

Mr. President: Then when this bill is passed the right of Eminent Domain or the right to appeal to City Council is completely out of our hands.

The Chair:

That is right, sir.

Mr. Leonard:

Mr. President: I am not thinking of the present Urban Redevelopment Authority. I think, as a member, we have faith in them and they will negotiate the best possible price there is on people's private property, but the thing that disturbs me is that there is no other recourse that anybody has got with the City of Pittsburgh once this bill is passed, and that is the reason I am raising these questions, to show something in the record that this bill does not come out of Committee by nine people saying Aye, and given three readings and everybody says Aye, and there is nothing for the people to come in and look up the history of this ordinance. I am a strong believer that the people are entitled to know how these laws are arrived at, and can come in and look at the history of this bill. That is the reason I am raising these questions. There are five lawyers in this Council and those that are not lawyers, I think, should ask the question and let the legal minds in this body explain it for the record, if a controversy comes up later on. Not come in and look at the record and see a vote Yes or No and nothing in the record to show how this law is arrived at.

Mr. McArdle:

Mr. President: I attended a hearing at which this matter was discussed. The hearing was very well attended by the residents and the people affected by this ordinance. I took, from what was said, there was no opposition from the people in the neighborhood, either the property owners or the tenants.

The only thing that the property

owners were very much concerned about what they were going to get for the property being taken. Everybody involved in the taking of this property convinced me that they are going to give the people the value of the property they are taking. They are not going over there and confiscate the people's property. That is number one. Number two is this, that we displaced the developer, and as Mr. Stewart has said, it is their obligation to see that they get houses and see that they get places to live, and on that basis, I am going to vote for the bill with the distinct understanding that those affected, the property taken, will be paid a fair price for their property. That has been assured by the spokesmen from Jones and Laughlin and the Urban Redevelopment Authority.

Mr. Duff:

Mr. President: I think Mr. Leonard is laboring under some misapprehension of the law. The City of Pittsburgh does not confer upon the Urban Redevelopment Authority the right to appropriate property for their use. That is a power which is conferred upon that body by the State, and we haven't anything to do with it.

The only thing that this Council has to do in the prelude is to find that the redevelopment area, after due investigation by the Authority and the Planning Commission, and are satisfied that it is to the best interests of the City that certain property be treated in that fashion. After we once exercise our judgment in that respect and find it is to the best interests of the City that the redevelopment take place, that is the end of our relation to the matter.

So far as the rights of any person whose property is taken are concerned, they have abundant recourse for the protection of these rights. First they have the developer the Steel Company who says it is going to pay a fair and reasonable price, and if the parties are not satisfied they can then ask the Common Pleas Court for the appointment of Viewers, and if they are still not satisfied, they can appeal to the Common Pleas Court and get a

jury trial. There is nothing we can do unless the City is satisfied.

Mr. Leonard:

Mr. President: I am not laboring under a misapprehension of the law. I am just asking a question. What I understand about it, the Steel Corporation no longer negotiates with any of these people in regard to the price. The question I raise, if the Steel Company is not going to do the negotiating, the Urban Redevelopment Authority is going to do the negotiating with the right of Eminent Domain no longer with the City.

Mr. Duff:

We don't give them those powers.

Mr. Leonard:

When we pass a law will they comply with it? We give them that power.

Mr. Duff:

They only get our consent to redevelop the land. That is all.

Mr. Leonard:

Mr. President: The power of the Redevelopment Authority originated from the State but the City Council did have to pass an ordinance to create it. That is the question I raised. If somebody wasn't satisfied say with the price, which we know in going through anything like that you wouldn't satisfy everybody. Then the Redevelopment Authority can exercise the right of Eminent Domain and take that property. Would those people be able to appeal back to City Council?

Mr. Duff:

No.

Mr. Leonard:

Then you say their next recourse would be to the Court of Common Pleas.

Mr. Duff:

That is right.

Mr. Leonard:

That is the reason I am raising these questions. Joe Blo may come in here and want to read a little history on this thing and I don't think an ordinance of this kind is fair to put

on the statute books without getting some explanation into the record. That is the reason I am raising the questions.

Mr. Stewart:

Mr. President: If the City of Pittsburgh should condemn a piece of property and the person wasn't satisfied, he wouldn't have any recourse to Council. He would have the same recourse as a property owner in this case, the Viewers and then the Common Pleas Court.

With respect to the matter Mr. Leonard raised, the matter of Jones and Laughlin. The reason they stopped negotiating is because the Redevelopment Authority considered it improper for them to be doing so when this is under consideration as a redevelopment project. The negotiations will be done by the Authority, which is a public body, and of course, it is our intention to pay fair prices, not exorbitant prices but fair prices, and if the people are not satisfied with the prices, they have their regular procedural program. However, they are better off, in a sense, than they would be with Jones and Laughlin for this reason, the Authority fixes a price with the owner through a sale and Jones and Laughlin is obliged to pay that price. They cannot come in and say, we could have got it for less, but they are bound to pay whatever price we fix. So it seems to me that the people over there have a better chance to get a better price than without us.

The Chair:

Mr. Stewart, are you a member of the Redevelopment Authority?

Mr. Stewart:
I am.

Mr. Leonard:

Mr. President: That question was brought out in the hearing and it is very important, too, that Mr. Stewart brought it out again and that is the reason I brought up the question.

Mr. Stewart:

Mr. President: I am convinced that the Authority, under the contract we have with the Jones and Laughlin Steel

Corporation, as redeveloper, can make sure that every one is fairly treated as to price and as to rehousing or resettlement or whatever you want to call it.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

URBAN REDEVELOPMENT AUTHORITY
OF PITTSBURGH

November 28, 1949.

President and Members

City Council of Pittsburgh

Gentlemen:

I have the honor to submit, on be-
half of the Urban Redevelopment Au-
thority of Pittsburgh, a redevelopment
proposal for Project Area 1-B and
Project Area 1-C, in Redevelopment
Area No. 1, in the First and Second
Wards of Pittsburgh.

The procedures outlined in the Re-
development Law of 1945 have been
fully complied with. The redevelopment
proposal, which includes among other
things the plan of Redevelopment Area
No. 1 and a proposed redevelopment
contract, has been submitted to the
Planning Commission for review and
has been approved by that body. The
Planning Commission has certified to
the Authority and to City Council its
recommendations of approval of the re-
development proposal.

It now becomes Council's function,
under the terms of the law, to con-
sider the redevelopment proposal and
to provide for a public hearing upon
it. If your final verdict is favorable,
the Authority will then be authorized
to execute the redevelopment contract
and to take such action as may be
necessary to carry it out.

The proposal fully sets forth the
benefits that may be expected from
this commercial redevelopment, and
through the proposed contract with the
redeveloper establishes what this Au-
thority considers are proper safeguards
and controls.

We trust that the Council will ex-
amine the proposal with the full
measure of consideration that it gives
to all important matters before it. We
hope that your deliberations will con-
vince you, as those of the Authority
have convinced its membership, that
the proposal is clearly in the public
interest.

Very truly yours,

David L. Lawrence,

Chairman

And the titles of the bills were read and agreed to.

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Demmler	Stewart
Duff	Weir
Gallagher	Wolk
Leonard	Kilgallen, (Pres't)
McArdle	

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Also

Which was read.

Mr. Duff moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Demmler:

Mr. President: The Ordinances which will enact the needed tax revenue measures for the City of Pittsburgh for 1950 are before us today.

We often hear the remarks that "Real Estate cannot stand any increase," "Real Estate is overburdened," "Other sources of tax revenue should be added," etc. I cannot agree with many of the statements made, regarding the real estate tax, since real estate consists of two distinct parts. One part is the land or location site, and the other is the building or the improvement.

The tax on land or location site should be increased and the burden should be taken off of the improvement.

The principle underlying the graded tax law is one which is sound and equitable since this rental value of the site is made by the presence of the people in the community.

I am convinced that any careful study of the effect of the graded tax law on the City of Pittsburgh and on the City of Scranton will prove the value of this principle, and that the graded tax law should be extended.

The Ordinance fixing the millage to be levied on the land assessment and the millage which is to be levied on the improvement assessment is Bill No. 3817. I will vote Aye on this tax bill.

The other Ordinances which levy taxes on mercantile sales and personal property, are ones which I have opposed. I opposed these taxes because they are taxes which burden industry and business, as well as create dissatisfaction among taxpayers.

I recognize the need of additional revenue to supply the City services, but I believe this revenue can be obtained by an increase of the millage which is placed on the land and the building assessments.

I will be recorded as Not Voting on these tax bills.

And the bill, as read a second time,

was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

Which was read.

Mr. Duff moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Leonard:

Mr. President: On Bill No 3873 exempting the position of Superintendent of the Bureau of Building Inspection from the residence requirements,

wasn't there a letter from the department accompanying that bill?

The Clerk read the letter as follows:

DEPARTMENT OF PUBLIC SAFETY

November 18, 1949.

The Honorable, the Council
of the City of Pittsburgh
Gentlemen:

The position of Superintendent of the Bureau of Building Inspection has been vacant since the death of George Boileau last month. Because of the importance of this position, it is essential that we have someone act as Superintendent immediately, and it is important that the person be a man who is fully qualified to perform the duties of the office. We are attaching a copy of the ordinance provision setting forth the specific technical requirements for the position.

Mr. Raymond A. Fisher, a registered architect of the City of Pittsburgh, has been a member of the Board of Standards and Appeals since its inception and has worked very closely with this office. Mr. Fisher is a graduate of the Architectural School of Carnegie Tech and has been rendering very valuable service to the City in connection with the administration of the new Building Code and many other problems that have arisen.

I believe it would be to the best interests of the Bureau of Building Inspection that Mr. Fisher be appointed as acting head to serve until such time as a suitable permanent Superintendent can be procured and at the same salary paid the Superintendent.

I call your attention to the fact that Mr. Fisher lives at 436 Locust street, Edgewood. He maintains his office in the City of Pittsburgh in the Century Building. It will be necessary therefore to pass an ordinance waiving residence requirements within the City. Such an ordinance is attached hereto for your consideration.

Very truly yours,

George E. A. Fairley,

Director.

Mr. Leonard:

Mr. President: The reason I thought that was in there I read that letter for Mr. Fisher. That is just on a temporary basis, if I understand it right.

The Chair:

I hesitate to say. I see Mr. Wolk nodding his head.

Mr. Leonard:

Mr. President: I understand it is just temporary until we find somebody suitable for that position. That is the reason I am raising the question, why do we have to pass a permanent ordinance?

Mr. Stewart:

Mr. President: It only waives it for one particular appointee.

Mr. Leonard:

Mr. President: This ordinance here doesn't say so.

The Chair:

This is a temporary situation, Mr. Leonard. As quickly as a resident of Pittsburgh can be found who has the qualifications for the office that gentleman will get the office and not a citizen of Edgewood.

Mr. Leonard:

Mr. President: That is true, but why do we have to pass this blanket ordinance. Once this ordinance is passed that leaves us eligible to hire anyone from anywhere. As far as I am concerned I want to vote for Mr. Fisher, but I don't want to wake up and find out that some one from Kalamazoo is running the Building Department. You men of legal minds can work out an ordinance that takes care of this particular case.

Mr. McArdle:

Mr. President: As this ordinance is written, he can be acting down there from now on.

The Chair:

That is right.

Mr. McArdle:

Mr. President: He does say that he hasn't been able to find anybody in

the City of Pittsburgh to do the job. Mr. Fisher as a member of the Building Code Committee, in writing the Building Code did a noble job and he should be congratulated for it, but I have been opposed to hiring men from outside the City of Pittsburgh and I feel confident that a man in the City of Pittsburgh who is capable of doing the job can be found and I suspect this might be a subterfuge to keep somebody in the City out of the job, and for that reason I am against it.

Mr. Leonard:

Mr. President: I think the bill ought to be recommitted and amended so that it takes care of the case of Mr. Fisher.

Mr. Weir:

Mr. President: We can hardly make it apply to a person by name. The bill would have to refer to the position rather than the person.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

Which motion prevailed.

Mr. McArdle presented

No. 3934.

Whereas, The horrible murder of a Shadyside woman on an open street points out the appalling lack of police protection for the residents of Pittsburgh, and

Whereas, This lack of police protection has been documented beyond contradiction by police records, FBI surveys and newspaper investigation, and

Whereas, A personal survey by me last December provided me with the first-hand knowledge of the frighteningly small number of policemen, particularly foot patrolmen, on duty

during the night in Pittsburgh, and

Whereas, It has been demonstrated conclusively that a sufficiently staffed corps of foot patrolmen augmented by an easily dispatched mobile force, provides the surest safeguard against injury to Pittsburgh citizens and invasion of their homes, and

Whereas, A City-wide tour of police beats by me disclosed that some districts had as few as three foot patrolmen on duty during the night.

Now, Therefore, Be it resolved, That the Mayor, the City Controller declare an emergency and that this City Council authorize the immediate hiring of at least one hundred additional policemen to be assigned specifically to foot patrol on beats and no other assignments.

Which was read.

Mr. McArdle:

Mr. President: The people of Pittsburgh have again been shocked and terrorized by the brutal murder of a woman on our city streets. In a heavily populated residential district, a sex fiend has struck again and raped and killed a respected resident of this city. This crime has struck fear and terror in the heart of every woman living in Pittsburgh and has again emphasized that, under existing circumstances, it is not safe for women to walk our streets alone. Almost a year ago, a young girl was murdered in her home and a series of attacks on girls and women became almost epidemic in proportion. At that time, I proposed the inclusion in the 1949 Budget of money for an additional 100 patrolmen to patrol on foot the streets of our city. That proposal was defeated. The administration defended its refusal by saying that foot patrolmen were obsolete and ineffective. This recent crime and their own admission now show how wrong they were. Pittsburgh needs more patrolmen to walk the streets of the city and protect its citizens. There is no known substitute for the men on the beat. Police in radio cars do not and cannot offer the same type of effective protection. Every large city in the country, excepting Pittsburgh, supplements its radio police with men on the beat.

Pittsburgh had better do likewise. We are not giving our citizens proper Police Protection. We cannot give them proper Police Protection with our present badly undermanned Police Force. Let's start being realistic and face the facts. It is my contention that the recent murder in Shadyside constitutes a state of city-wide emergency and City Council has the obligation to recognize it as such. I am therefore calling on the Mayor and the City Controller to immediately declare such an emergency and that this City Council immediately authorize the appointment of at least an additional 100 patrolmen to be used exclusively for patrolling on foot the streets of our city. Let us make our streets safe once more.

Mr. McArdle moved

The adoption of the resolution.

Mr. Leonard:

Mr. President: I listened with great interest to the reading of this resolution, and I recall back about this time last year I attempted, with the support of Mr. McArdle, to amend the Salary Bill, which, in my opinion, was the proper time to do it, at budget time, to be able to secure 100 additional police.

The other day, I think it was last Tuesday, I mentioned the same thing in the Public Safety Committee meeting or the Finance Committee meeting. I brought up the question then that as one man I would do everything possible to see that the City was able to get 100 more policemen this year. I intend to continue to do that. I don't think the answer is ten, or twenty or fifty, I think it is a hundred.

If you will recall, last year when I attempted to amend the Salary Ordinance to hire 100 additional policemen, I said put on a hundred one year and a hundred the next year until over a period five years you would have increased the police force by at least 500.

Now we get back to the old question. First one will say where are you going to get the money? I am going to

agree with Mr. McArdle's resolution, and I do think 100 additional police are needed, and I don't think starting tomorrow, I think we should have started a year ago. That is a matter of record, and I am only repeating what I said. There is no such thing as a political campaign now, and I am not going to sit by and disagree with this resolution. It is too bad a situation like this has had to occur. It is too bad the women of the town are all scared. We can understand it. It is not only in this City, it is in many cities throughout the nation. But on the question of money, I say to you, Mr. Chairman, you have the money and have it right now. Your surplus will be large that is the money for this year. We are going to put into effect a lot of things that have been promised, and what the majority of you say, are things for the best interest of the City of Pittsburgh, but I think, as a member of this Body our Number One duty is proper police protection. This question of beat patrolmen is nothing new. It has been pointed out that due to so much newspaper advertising and comment on it, it puts a lot of ideas into some of these people's minds, especially in the minds of people who are a little criminally inclined. But our Number One duty, regardless of what we have to neglect is police protection. I was very much disappointed and expressed it in the public records.

Two years ago when we passed the so-called tax bills and placed them on the statute books I was under the impression that a lot of that money would be ear-marked for expanding the police department. That wasn't done.

Whether this case came up or whether this resolution came in today I intended and still intend to, and I have not changed my mind one bit from last year and don't intend to change it. I pointed out the reasons why I think it should have been done last year, that there was a lot of good manpower that came out of the service that wanted to dedicate their lives to police duty and we were able to draw from that manpower to get a good

police department.

I am not going to stand here and blame the Shadyside district incident on that. That has happened and the people are looking to us. We are all married here and know what we are confronted with in our own homes. We know what our neighbors are talking about. We walk on the street and people stop us and it is common conversation that the women in this town are scared, and when a catastrophe like that happens it makes them that much more scared.

I realize there has been an emergency for a long time, but I don't see anything wrong in laying the groundwork in passing this resolution.

I realize that a hundred additional policemen will take approximately three hundred thousand dollars a year more, but I repeat, we have that money and we have it today. We have much more in our surplus, in our carry-over from a year ago, that money is taken to be put into something else. We have got to curtail. Our Number One duty is to satisfy the people of Pittsburgh to their needs. We are not going to curtail any promises or plans we have made. I made a lot of promises when I was a candidate for Mayor of the City, but one of the promises I made was that there would be 100 additional policemen, and that I still stand for. It is not politics now. The election is over. It was only a couple of weeks ago, but we are not setting the budget for 1950, a budget of 34 million dollars and a large bond issue that will put it close to forty million dollars. We will have a health program, a playground program and other new programs, and redevelopment, all important and all great things. Public health is one of the finest things you can do when you have the money to do it, but the Number One duty is the protection of our citizens.

This is no idea of any politician or group of politicians. This is a demand of the citizens of Pittsburgh that want and must have beat patrolmen in the City of Pittsburgh. And we go back to the beat patrolman, what we talked about a year ago. A beat pa-

trolman is a part of the community, not in radio car, not in a cruising car, but the man should pull the box every hour.

I do think, Mr. President, that sincerely we should forget our likes and dislikes and let's face the issue and be big enough to expand the police force. We will get criticized, that is true. Large real estate people will come in and complain, but no one can say you are increasing taxes because we just passed the bill for the Mayor's signature, so let's face the issue. I am for passing the resolution today. Let the information go out that Council has passed it and instructed the Mayor to employ 100 more policemen to walk beats and reorganize the police force. With the little money we have let us try to do what their requests are. That is one of the greatest things you can do for the people of Pittsburgh. That is my opinion and the reason I got up is because I have the name on the bulletin board as Chairman of the Public Safety Committee, and as the Chairman I say we have to think about the people.

Mr. Stewart:

Mr. President: It seems to me that this matter ought to be studied, and I for one, would like to inquire from different sources whether or not we could do this this month. It would be hypocrisy to pass this thing if we couldn't do it. I don't know whether we could put 100 policemen or any number on before our new budget goes into effect.

It seems to me that this resolution should properly go to committee tomorrow to be discussed, and will let the members who want to, find out how much it will cost and how much money we have and whether the policemen are available and how soon they could be put on, and whether the police department has any suggestions to make about putting men immediately on beats, men who are already on the force.

It seems to me it would be a mistake to pass this resolution this afternoon without a chance to inquire into this question.

The question of more police, every man in this City, certainly every member of this Council knows is probably the most important question we have. I don't think we want to decide it in fifteen minutes.

Mr. Leonard:

Mr. President: I realize you don't decide that in fifteen minutes and I don't think the people want it decided in fifteen minutes, but the reason I raised the question is the fact that the Civil Service Commission has taken examinations and given cards to quite a few hundred men who have taken the Civil Service examination and I do think that the money is there.

Mr. McArdle:

Mr. President: I don't think there is any doubt in this Council's minds their ability to do it. This resolution very specifically calls on the Mayor and the City Controller to declare an emergency, and Mr. Stewart well knows that when an emergency is declared that we do have the power to put an additional number of men on the police department. I don't think there is any doubt in anybody's mind that a hundred additional policemen are direly needed, and putting a hundred on does not meet the problem. This resolution calls for the Mayor and the City Controller to declare an emergency, and after all, an emergency does exist, and it didn't start with the brutal slaying of this woman in Shadyside last week. The emergency has been right at our door for the last couple of years. It was a problem last year when we tried to put additional policemen on. Every time the Department of Public Safety came before this Council their cry is that they don't have enough men. Certainly they don't have enough men, and that is why it is a sad situation that a tragedy like this has to develop before you can get additional men on the police department. Every man, woman and child in the City of Pittsburgh knows we don't have enough policemen and certainly every Councilman ought to know it.

Mr. Stewart:

Mr. President: I am not opposing

Mr. McArdle's idea of having more policemen. I think we should have more men on beats much quicker than we can do it with an emergency, but he certainly knows to try to employ, if I understood him correctly, if we pass that resolution that 100 more policemen can immediately be put to work if the Mayor and the City Controller declares an emergency. That simply gives this Council power to increase the appropriation. We couldn't put policemen to work for some time and he knows it. This matter should be studied in an orderly way.

Therefore, Mr. President, I move that Mr. McArdle's motion be laid on the table.

Mr. McArdle:

Mr. President: I have been a member of this Body for eight years and I don't think there is any member of it that has been associated with it ever tried to use one method of deception as a public official.

We have the power to create and put 100 policemen to work, and we don't have to wait until the budget to do it. There is a list in the Civil Service of people who have signified their desire to become patrolmen in the City of Pittsburgh, over 90 per cent of whom have been soldiers and are veterans and they could be called immediately. In this emergency for a physical examination and this resolution could certainly put the wheels in motion to acquire the hundred men. Putting it off for another month will only deny the people of Pittsburgh the protection that these hundred men would give them for another month and possibly a couple more, and another tragedy.

There is nothing wrong with that resolution. There is nothing in it that has any deception in it. The power this Council has to call on the Mayor and the City Controller to submit a request for 100 more policemen. It lets the Mayor and the City Controller know by the passage of this resolution that we think there is an emergency and that we think something should be done about it, not wait three or four weeks to get the necessary reports from the police department. I

don't need any reports. You can call Fairley up now and ask if he needs 100 patrolmen and he will say he does.

Mr. Gallagher:

Mr. President: I don't want to be put in a position of voting to lay this bill on the table. I think the resolution should go to Committee and be taken up tomorrow and get the actual facts. There is none of the nine Councilmen here that has not been in favor of adding more policemen. We know we need more policemen, but the question was the money. Mr. Leonard has said we have the money. I get my reports from the Chairman of the Finance Committee who is also the Chairman of the Budget Committee and this so-called surplus, according to the figures, is not there. We are all anxious to protect all the citizens, not only women and children. This wave of hysteria is going on all over the country. If you listened to Drew Pearson on the radio last night he pointed out about these sex morons. I think this resolution should not be laid on the table. It should go to committee and we should get the facts whether we can put on fifty or a hundred additional men.

Mr. Stewart:

Mr. President: Mr. Gallagher misunderstood the effect of my motion. I moved to lay Mr. McArdle's motion for immediate adoption on the table, which automatically sends the resolution to Committee.

Mr. Gallagher:

Mr. President: As I say, I realize and so do other members of this Council we need more policemen, but in order to have more policemen we need more money to pay them. This assertion, made about a big surplus, I would be very happy if we had it, and I don't think anybody would object to increasing the police force.

We need some action to deal with the suggestive material that is being placed on the news stands of the City that interests morons and cause them to attack women and children. We have been too lax in our City and in some other cities as to the kind of

suggestive material that is placed on the news stands.

I think this resolution should be studied tomorrow in committee.

Mr. Stewart:

Mr. President, I ask that you rule as far as the parliamentary aspect. If I am mistaken I would like to be told. My motion merely tables Mr. McArdle's motion for immediate adoption, which if adopted would then send his resolution to committee for consideration.

The Chair:

That is the correct interpretation of the problem.

Mr. Leonard:

Mr. President: I think Mr. Stewart's explanation of it was all right, but when the motion was made to lay it on the table, to my knowledge it has not automatically sent the bill to committee. If you pass that motion that this bill lie on the table.

The Chair:

The Chair: That wasn't the motion. Mr. Stewart moved that Mr. McArdle's motion lay on the table. Let's have a clear understanding of what happened. Mr. Stewart did not move that the resolution be laid on the table. He moved that Mr. McArdle's motion be laid on the table.

Mr. Stewart:

Mr. President: His motion was for immediate adoption of his resolution. As I understand it in our Rules when a piece of legislation is presented, if no special motion is made, it automatically goes to committee. That is the reason why, if his motion is laid on the table then the resolution goes to committee where I think it belongs.

The Chair:

You all know a motion to lay on the table is not debatable, but I know you all prefer a free and extended discussion of the subject. This is an important subject. That is why I have not resorted to any parliamentary ruling to affect the discussion at all.

I also know each of you well enough

to know that each of you are shocked and saddened by this tragedy in Shadyside. I think you all know that the City of Pittsburgh needs more police protection. Whether that more adequate police protection should come from an increase in personnel or better use of the personnel we now have, or a combination of many elements, I don't know.

It just so happens that this discussion comes at a time when we are very closely studying budget matters. It also comes at a time when the Mayor of Pittsburgh has called upon the Police Trial Board to inquire into these matters.

I am told that the Police Trial Board is going to sit next Wednesday for public hearing and public discussion of this whole subject, particularly the tragedy in Shadyside. There are some aspects of the Shadyside incident that are very depressing and very saddening. If newspaper comment is accurate the police department did not function efficiently, to put it very mildly, but that is apart from this decision.

Mr. Gallagher very clearly stated the proposition when he stated that every member of Council is willing and anxious to add more men to the Police Department.

A larger police force has been an active topic of discussion since I have been in Council. We have always been stopped by pressure groups, not pointing particularly to this item of expense, but other groups urging that money we had could be better spent elsewhere.

The people of Pittsburgh should understand that the Council considerably increased the police department of the City when we added the feminine contingent, the School Guards, to the police force.

In brief, I don't want to vote for this resolution today. I may vote for it tomorrow. I would like it to dovetail into our discussions and with what the Trial Board is doing.

I voice the sentiments of every mem-

ber of Council when I say this resolution will not be killed. It will be carefully considered. The subject for months has been carefully considered.

Mr. Weir:

Mr. President: In line with that, I think the real unfortunate aspect of this discussion is the fact arising from your modesty that it is not known, and of course, will not be known, that you, as the President of Council, and Mr. Duff, as Chairman of the Finance Committee, and therefore Chairman of the Budget Committee, together with the whole-hearted support of the Council, have been working for weeks on the problem of putting on more policemen, and that was without regard to this terrible tragedy. As I say, it has been going on for several weeks, and all during that time Mr. Duff has been talking to department heads, cross-examining them very vigorously and carefully with respect to their requests for money, beating down their requests, and you have been at their side, insisting that money be put aside for more policemen, and before Mr. Leonard made his statement in Committee last Tuesday with respect to the same matter. Then before your efforts and work have become public knowledge this tragedy occurred and of course, all your efforts go for naught, and you are almost put in the positions of not recognizing this problem or of doing nothing about it, whereas the exact opposite is true. I have just been re-elected, but I think it is most unfortunate and unfair since you men who have been working on this with sincerity and who in one sense have been put in the position of appearing to the public to be not in favor of having more police protection. I don't suppose anything I say will mean anything.

When a thing like this occurs as this in Shadyside that overshadows everything and you realize that it is probably useless to try to explain what you have been doing, but I would not let this pass without giving credit to you and Mr. Duff and the members of the committee who have been working for several weeks on this

matter of trying to get more police protection, including getting more policemen.

The Chair:

Is there a second to Mr. Stewart's motion?

Mr. Demmler:

Mr. President: I second the motion.

The Chair:

A vote for means that the resolution will be discussed in Committee tomorrow.

Mr. Duff:

Mr. President: As I understand the practice, a motion to lay on the table simply has the effect of having action on Mr. McArdle's motion. If a vote on that carries the motion which was suggested by Mr. Gallagher, that the bill go to Committee, will be in order.

Mr. Leonard:

Mr. President: I want to qualify my vote. As far as I am concerned, the bill does not have to go to Committee. I haven't just realized this problem in the last couple of months. I brought it up two budgets sessions ago. After a lot of study last year I tried to amend the salary ordinance. I used the language at that time we were facing an emergency on account of the condition of the manpower. Since the budget was made up I have continued to make a study of the situation. The detail being used around here, the Chairman of this committee and the Chairman of that committee, I will report for myself as Chairman of the Committee on Public Safety. I know all I want to know whether 100 more policemen are needed, and I have been under the opinion that this is a very much needed emergency. I have covered it before and will cover it later, and I am of the opinion it can be passed without going to committee.

Mr. McArdle:

Mr. President: So that the record might be clear, I knew that the City needed more policemen and I went to the trouble to find out that we did. I voted for more policemen in last

year's budget, I am going to vote against tabling this motion, because I know we need 100 more policemen and know we need them more than we need the new people we got from all over the United States in the Health Department.

Mr. Gallagher:

Mr. President: We could very easily adopt Mr. McArdle's resolution that directs the Mayor and the City Controller to declare an emergency but it doesn't say how we are going to pay for it. It is all right to make statements that you can put 100 policemen on, but we don't know where the money is to pay them. That probably will develop in Committee. I move that the resolution go to Committee.

Mr. McArdle:

Mr. President: About a year ago this time I made a prediction of the surplus we would have and was promptly told I was crazy, but we did have a surplus. To meet the requirements of this resolution you must have in the neighborhood of three hundred thousand dollars. I don't think there is anybody here in this Council that doesn't think, if they really want to do it, they can find three hundred thousand dollars. They found what might reach many times that in the Health Department and I say a hundred more policemen are much more important than what the three hundred thousand dollars is being spent in the Health Department. There will be better than three hundred dollars. For the sake of the record I will say there will be in the neighborhood of a two million dollar surplus.

Mr. Stewart:

Mr. President: What the people want is not a declaration of an emergency by the Mayor and the City Controller. They want more men in blue uniforms walking around the streets at night. That can be done, I am convinced immediately, and that is why it seems to me, we want to discuss this tomorrow. Before it can be done I believe we must consult those who run the police department. It can be done with the manpower we now have.

I am not saying we don't need more policemen.

If we passed this resolution we would still have to appropriate money and create more positions. You don't put a policeman to work by the declaration of an emergency. We would have to create positions. We would also want to hear what the Superintendent can do about granting some relief while we are determining this question.

I don't know whether you could get 100 policemen to work before the first of January or not. I assume you could, but I am not certain of that. Mr. McArdle can't be certain of that either. There are names on the Civil Service list, plenty of names, but whether we could put 100 men to work before the first of the year is what we don't know about. We also want to know what the Superintendent can do about the re-assignment of his personnel to take care of this situation.

Mr. McArdle:

Mr. President: I know the passage of this resolution does not immediately put the people to work but I also know that if the emergency is declared the legislation can be presented by Monday a week and the machinery and by Monday a week the police personnel can be increased and Mr. Stewart knows that. I know the passage of this resolution doesn't put 100 policemen to work but it certainly starts the machinery to work to get the policemen.

And the question recurring on the adoption of the motion of Mr. Stewart, the motion prevailed.

And the resolution was referred to the Committee on Finance.

Mr Wolk moved

That the Minutes of Council of Monday, November 21, 1949, be approved.

Which motion prevailed.

And upon motion of Mr. Wolk Council adjourned.

Which motion prevailed.

The Chair appointed Messrs. Demmler, Duff and Gallagher to inform the Mayor of the action of Council and to escort him to the Council Chamber and in the meantime we will be at ease.

After the return of the Committee and the Mayor, Mr. Demmler:

Mr. President, your Committee presents the Honorable David L. Lawrence, Mayor of the City of Pittsburgh.

The Chair:

The Committee is discharged with the thanks of Council. Members of Council, the Mayor of Pittsburgh.

Mayor Lawrence:

President and Members: I have the honor to transmit herewith budget estimates for the City's operation in 1950.

It is gratifying to be able to report to you that this proposed budget, despite substantial increased services, is in balance without any increase in the present city tax rates and without the imposition of any new form of municipal taxation.

On the basis of its present revenue structure, the City's 1950 income and its accumulated cash reserves will be adequate to meet its needs during the coming year.

The appropriations authorized in this budget estimate total \$34,497,174.00.

Estimated 1950 revenue is \$32,900,900.00. The estimated net cash balance available for next year's use is more than \$1,600,000.00. The revenue estimates used are those of the City Treasurer's Office and, in my opinion, are conservatively based upon actual 1949 experience and prudent expectation as to 1950.

It is our hope, and it will be our purpose, to exercise rigid budget control over appropriations during the coming year, so that actual expenditures may be kept as far as possible within and below authorizations, and the city's surplus husbanded accord-

ingly. This cash reserve is a most important "cushion" in our system of finance, and its substantial preservation is a critical factor in preventing budgetary difficulties in future years.

The budget provides for the employment of 100 additional patrolmen in the bureau of police at a cost in salaries and uniform allowances of \$305,400.00. The need for additional manpower in the police bureau is well established. This budget has been adjusted to meet that need without adding to the tax burdens in the city.

The addition of this personnel, together with the change in shift assignments now in process, will go far toward accomplishing intensified police protection throughout the city.

The new patrolmen will, of course, be appointed from the present civil service eligible list. A special training program will be developed for them, so that when they begin their assignments in active police work, they will be well equipped in the basic elements of police duty.

The budget also provides for a continuation of the steady improvement of our public health services. The work already underway is strengthened and consolidated. It now becomes possible to add the staff for a division of maternal and pre-school child care to our health services. No phase of public health protection is more important, or more fruitful in result, than the prevention of illness in mothers and infant children.

While the budget makes no special provision for the addition of fluorides to the water supply, I am sure that we will find it possible to undertake this program within the budget limits when the committee of dental and public health experts is ready to make its final recommendations. Certainly, the prevention of tooth decay in the coming generation of Pittsburghers is a most worthwhile objective for a moderate outlay of public funds.

A moderate increase in the department of parks and recreation also reflects the expansion of services. We must all recognize that every improvement such as a new swimming pool or playground adds to the city's mainte-

nance costs, and becomes a budgetary as well as a capital item.

I would like to call attention of the Council, at this time, to the compensation of the heads of the city's departments. Under the law, there can be no adjustment of these salaries during the term of office of the directors, which is normally the four years of a municipal administration. Consequently, department heads have not shared in the successive increases granted to all other municipal personnel. I suggest that Council may well consider the wisdom and the justice of applying the rate of such increase to the departmental directors, in the light of the fact that these vital executive posts in the city government are still at the 1933 salary level, while other personnel have received increases of from 30 to 50 per cent.

The City of Pittsburgh has made progress—startling progress—in a wide range of community improvement. Not the least of the progress has been achieved in the strengthening of the City's fiscal position. Solvency is the first necessity of a functioning municipal program.

This budget assures us of such solvency during 1950.

In the years to come, it is reasonable to hope that the growth of the city—the addition of new values—will reinforce our financial abilities.

We cannot flourish by imposing heavier tax burdens on a diminishing amount of taxable valuations.

We will maintain our municipality and improve its capacity to render public service by creating a public environment in Pittsburgh which attracts investment, which promotes redevelopment, which extends our trade and employment opportunities, and which constantly adds to the values inherent in the City.

The Chair:

City Council expresses its appreciation to the Mayor for his personal delivery of the Budget Message.

DEPARTMENT OF LAW

Pittsburgh, November 29, 1949.

President and Members of Council.
Gentlemen:

Reference is made to Bill No. 3823, an Ordinance requesting the transfer of \$6760.00 from Code Account No. 1016 to Code Account No. 1028.

This is to advise you that no Emergency Declaration is necessary in connection with the aforementioned transfer.

By Ordinance No. 281, approved June 7, 1949, several new positions were set up in Traffic Court and at that time, the additional money necessary to pay the appointees was transferred to Code Account No. 1016. At this time, an Emergency Declaration was signed by the Mayor and the Controller.

Due to an inadvertence the wrong code account was designated. The present transfer ordinance is merely to correct this error. Therefore, no Emergency Declaration is needed at this time.

Very truly yours,

LOUIS DADOWSKI,

Asst. City Solicitor.

**CITY OF PITTSBURGH
CERTIFICATE OF EMERGENCY**

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Works, in letters addressed to the Mayor and the City Controller, under date of November 28, 1949, has stated that an emergency has arisen in the Division of Bridges, "Bridge and Fence Repairs and Repainting," Bureau of Engineering, Department of Public Works, making it necessary to amend Section 62 of Ordinance No. 550, approved December 30, 1948, entitled, "An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof," by eliminating the number of days set up in the aforesaid Section 62, for the reason that the Bridge and Fence Repairs and Repainting forces are not set up in the above Ordinance to cover all of the work days of 1949, including overtime, and unless the number of days is eliminated it will be impossible to keep this force intact for the balance of the year 1949; and

CITY OF PITTSBURGH

CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Safety in letters addressed to the Mayor of the City of Pittsburgh and the City Controller under date of December 15, 1949, has stated that on April 2, 1949 the Bureau of Building Inspection posted for condemnation the buildings at 1013-1015-1017 Liberty avenue, and the actual demolition of said buildings was postponed in order to permit the various taxing bodies to recover some of the delinquent taxes against the said properties which were in excess of \$60,000.00.

Subsequent to the posting for condemnation, the Bureau of Building

Inspection made periodic examinations of the aforesaid buildings, to be sure that they were safe for occupancy while the delinquent taxes were being liquidated;

Their last inspection indicates that an alarming condition has developed in the physical condition of the structures, making their immediate demolition necessary, and it is felt that the razing must be done so quickly that bids, in the usual way, cannot be obtained. Bids have already been asked for and the lowest received on total demolition was from the General Wrecking Company in the amount of \$5,200.00;

Whereas, Such appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, we, DAVID L. LAWRENCE, Mayor of the City of Pittsburgh, and EDWARD R. FREY, City Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the letting of a contract to the General Wrecking Company for the demolition of the buildings at 1013-1015-1017 Liberty avenue, Pittsburgh, Pa.

David L. Lawrence,
Mayor.

Edward R. Frey,
City Controller.

Dated: Dec. 19, 1949.

Pittsburgh, Pa.,

Friday, December 23, 1949.

And the hour of 10:00 o'clock, A. M., having arrived and the time of the recess having expired, Council reconvened and there were:

Which were read and referred to the Committee on Finance.

The Chair:

The clerk has informed the Chair of the death of The Honorable Robert M. Gibson, Judge of the Federal Court for Western Pennsylvania—I suppose within the last hour.

Judge Gibson was my instructor at Law School, and he was my beau ideal of a gentleman, a scholar and a Judge. The community is poorer for his passing. For more than a quarter of a century he was a Judge in Federal Court, and his fairness, his integrity and his independence earned for him the respect and confidence of every lawyer in Western Pennsylvania.

Mr. Demmler:

Mr. President: Every member of Coun-

cil during this year, and especially during the past three months, has received numerous written and verbal appeals for increase and adjustment of salary. All of these could not be granted, after most careful consideration.

The Ordinance for the salaries and wages for the year 1950 is before us as Bill No. 3819, File No. 2166. In this Ordinance there still exist many inequalities. Some of these can be corrected through decisive, responsible administrative action during the year.

Until an exhaustive and detailed study is made of all the positions on the City payroll and of the respective salaries applying to the position, we cannot hope to correct the justified complaints.

Such a study will cost time and money, but I believe it would be money well spent and would be well worthwhile.

In the conferences and in committee meetings considering this bill I have stated my position and my reasons for the same. I shall continue to do so.

Since we should have a new salary bill by January 1, 1950, I will vote Aye on the Ordinance before us.

Whereas, The Director of the Department of Public Works in letters addressed to the Mayor and the City Controller under date of November 19, 1949, has stated that it is necessary to transfer the sum of \$8000.00 to Code Account 1756—Wages, Regular Employees, for the reason that insufficient time has been allotted to employees and that no provision has been made for overtime for Chief Engineers or First Assistant Engineers during sick leave and vacations. Also, that it is necessary to transfer the sum of \$1000.00 to Code Account 1761—wages, temporary employees, for the reason that construction and installation of new equipment at the pumping station necessitated excessive overtime for mechanics required on the jobs;

That the transfers to both these accounts will be used for operating and maintaining the City water system and is the same purpose for which the funds to be transferred were appropriated in the 1949 Budget; and

Whereas, Such appears as good and sufficient reason to impel the certification of an emergency under the circumstances;

This Agreement made and entered into this _____ day of _____ A. D. 1949, by and between the Pennsylvania Rail-

road Company, a Pennsylvania Corporation, hereinafter called the "Railroad," party of the first part, and the City of Pittsburgh, a municipal corporation existing in Allegheny County, Pennsylvania, hereinafter called the "City," party of the second part,

W I T N E S S E T H

Whereas, the Point Park Project, being developed by the City and the Commonwealth of Pennsylvania, requires the abandonment and demolition of the freight station and warehouse of the Pennsylvania Railroad Company, which, in order to continue service to its patrons in the Downtown area, desires to construct a freight station and warehouse upon lands bounded by Penn avenue, Liberty avenue, Twelfth street and Sixteenth street in the said City of Pittsburgh; and

Whereas, the Railroad desires to improve its passenger terminal facilities, which makes it necessary to shift Liberty avenue northwardly between Eleventh street and Fifteenth street, and to make such grade changes as are necessary on existing streets, and to construct a pedestrian bridge over Liberty avenue east of Eleventh street; and

Whereas, the Railroad, as a part of its program for the improvement of its passenger terminal and passenger terminal yard, desires to remove its existing overhead bridges carrying its tracks across and above the grade of Liberty avenue, Eleventh street, a portion of Exchange way, and Penn avenue; to construct new overhead bridges at points east of the existing overhead bridges in order to carry its tracks across and above the grade of Liberty avenue, Penn avenue and Eleventh street; and to construct a pedestrian bridge across and above the grade of Liberty avenue east of Eleventh street;

Now, Therefore, it is mutually agreed between the parties hereto as follows:

1. There is attached hereto and made a part hereof as Exhibit "A" blueprint of Plan No. 25134-A, dated February 8, 1949, to which references will hereinafter be made.

2. The City will, by appropriate ordinance or ordinances, vacate all or a portion of the following streets:

- (a) The southerly twenty (20) feet of Liberty avenue from the easterly line of Eleventh street, extended, to a point twenty (20) feet east of the easterly line of Fourteenth street, extended, and thence diminishing in width to a point between Fourteenth street and Fifteenth street, as shown upon Exhibit "A."

3. In consideration of the vacation by the City of the streets, alleys and ways set forth in paragraphs (b), (c), (d), and (e) of Article 2 of this agreement, the Railroad will pay to the City the sum of Twenty-five Thousand Dollars (\$25,000.00) upon acceptance by the Railroad of the ordinance or ordinances effecting such vacations.

4. In order to permit the free flow of increased vehicular traffic upon Twelfth street and Fourteenth street which will result from the use of its new freight station and warehouse, and for the consideration set forth in Article 14, the Railroad will dedicate to the City for use as a public highway two strips of land, each twenty (20) feet in width, the first extending from the southerly line of Penn avenue to the new northerly line of Liberty avenue

and abutting the westerly line of Twelfth street; the second extending from the southerly line of Penn avenue to the new northerly line of Liberty avenue and abutting the easterly line of Fourteenth street, all as shown upon Exhibit "A." The City shall accept the said strips of land and take appropriate action to widen Twelfth street and Fourteenth street accordingly. The City shall accept the said five strips of land and take appropriate action to reestablish the lines of Liberty avenue. The Railroad, at its own expense, will construct, subject to inspection and approval by the "City," new paving, curbing, drainage and a new north sidewalk for Liberty avenue, as relocated, between the easterly line of Eleventh street and Fifteenth street, in accordance with plans and specifications to be furnished by the City.

6. The City will by appropriate ordinance or ordinances establish new

grades for Liberty avenue, as relocated, between Eleventh street and Fifteenth street, and for Twelfth street, Fourteenth street and Sixteenth street, in order to provide sufficient clearance for the "Railroad" structures. The Railroad, at its own expense, will re-construct the paving, curbing and sidewalks for said streets in accordance with the new grades therefor.

7. The City will grant to the Pittsburgh Railways Company, or its nominee, a substitute franchise for the construction, use and operation of a single street car track in Fourteenth street equal to such franchise as the Railroad may have for their existing street car facilities in Fifteenth street. The City will grant to the Pittsburgh Railways Company, or its nominee, the right to relocate its single street car track in Liberty avenue between Eleventh street and a point between Fourteenth street and Fifteenth street in order to accommodate the northwardly relocation of Liberty avenue between Eleventh street and a point between Fourteenth street and Fifteenth street.

8. The City, subject to the conditions set forth in Article 9 hereof, hereby consents to the construction, use and operation by the Railroad of the following public crossings in accordance with the grades and locations shown therefor upon Exhibit "A":

- (b) Two sidetracks crossing Sixteenth street and two street car tracks of the Pittsburgh Railways Company at grade.
- (c) Two sidetracks crossing Fourteenth street and a single street car track of the Pittsburgh Railways Company at grade.

9. The consent of the City to the construction, use and operation of the said grade crossings shall, contingent

upon approval by the Pennsylvania Public Utility Commission, be subject to the following conditions:

- (a) The crossing of Liberty avenue in the vicinity of Seventeenth street shall be protected by flashing light warning signals to be operated and maintained by the "Railroad."
- (b) The crossings of Sixteenth street and Fourteenth street shall be protected by a member of the train crew who shall precede each movement across the said streets in order to give warning to the public.
- (c) Except for the emergency operation of wreck trains and work trains, the Railroad shall only move its trains, cars and engines over the three crossings between the hours of 1:00 A. M. and 5:00 A. M., and the Railroad shall not make more than four movements (two round trips) over the said Liberty avenue crossing between the said hours.

10. The City consents to the removal by the Railroad of its present bridges carrying its tracks across and above the grade of Liberty avenue, Eleventh street, a portion of Exchange way and Penn avenue, as shown upon Exhibit "A."

11. The City consents to the construction of new bridges to carry the tracks of the Railroad across and above the grade of Liberty avenue, Penn avenue and Eleventh street. The said new bridges shall provide a minimum clearance of fourteen (14) feet above each of the said streets, and shall include adequate provisions for drainage facilities. The faces of the abutments or end supports for the said bridges may be placed upon the street line. The location and design of such supports and footings shall meet with the approval of the Director of Public Works of the City.

12. The City consents to the construction by the Railroad of a pedestrian bridge across and above the grade of Liberty avenue, east of Eleventh street, as shown upon Exhibit "A". The

said new pedestrian bridge shall provide a minimum clearance of fourteen (14) feet, and none of the supports therefor shall be located within street lines. Said bridge shall include adequate provisions for drainage facilities.

13. The City consents to the construction of a new retaining wall along the south side of Liberty avenue replacing the present stone masonry wall extending from the east end of the new train shed near Fifteenth street to approximately 400 feet east of the easterly line of Seventeenth street. The face of said wall shall be located upon the south street line and the footing may project into the street and below the grade thereof for a distance not to exceed two (2) feet. Appropriate measures shall be taken by the "Railroad" in the design of the retaining wall to provide for catch basins, utility poles and street car loading zones.

14. In consideration of the dedication by the Railroad of the land described in Article 4 hereof, the City consents to the removal by the Railroad of all or part of the stone slope wall which extends along the south side of the passenger station tracks between Twelfth street and Thirteenth street, extended, and to the replacement thereof with a vertical retaining wall which will at no point be nearer to Bigelow boulevard than the top of the existing stone slope wall; and the City does further agree to release and quitclaim to the Railroad any right, title and interest in and to the land to be occupied by the said vertical retaining wall between Twelfth street and Thirteenth street, extended, or any land to the north thereof between said Twelfth street and Thirteenth street, extended, which is to be occupied by passenger station track and platform, as shown upon Exhibit "A." Plans of the proposed construction shall have the approval of the Director of the Department of Public Works of the City.

15. The City shall cause any and all tracks, pipes, sewers, wires, conduits or overhead or underground work for water, gas, telephone, telegraph and electric lights, street railways or other

public utilities, located in any of the streets or ways affected by the proposed improvement, to be raised, lowered, changed or moved from the position in which they may be found, as may be necessary to permit the provisions of this agreement to be carried out insofar as it has legal power so to do.

16. The Railroad shall assume and bear the entire cost of carrying out the provisions of this agreement, including all cost, damages and expense arising from the vacation, widening, change of grade, and physical improvement of streets, and the Railroad agrees to indemnify and save harmless the City from any and all costs, damages and expense to it in carrying out this agreement, including the cost of relocating the utilities owned by the City; it being the intent and meaning of this agreement that no part of the cost thereof shall be paid by the City and that all of said cost shall be paid by the Railroad. During the construction period, the Railroad will require its contractor or contractors to carry Public Liability and Property Damage Insurance for the protection of the City, in an amount satisfactory to the City.

17. Where traffic and the use of City streets will be affected by the Railroad's construction operations, approval, relative to the sequence of work, facilities for the protection of the public and the timing of operations, will be required by the City. The cost of services for necessary watchmen for the protection of the traveling public will be borne entirely by the Railroad.

18. On completion of the work, in a manner satisfactory to the City, the City will accept the widened, relocated and repaved streets, including its relocated utility facilities, and the City will, thereafter, at its own expense, maintain, repair and renew the same; provided, however, that the Railroad will maintain, repair and renew the paving of the said railroad grade crossings in Fourteenth street, Sixteenth street and Liberty avenue within the crossing area which shall extend to a line 24 inches outside of the

outer rails.

19. The City shall provide and furnish to the Railroad, free of cost, two certified copies of the resolution or ordinance authorizing the execution of this agreement.

20. This agreement shall take effect at the expiration of thirty (30) days from the date when a copy thereof shall be filed in the office of the Secretary of the Pennsylvania Public Utility Commission, Harrisburg, Pennsylvania, provided that, if the said Commission shall, prior to the expiration of such period, institute a proceeding affecting its validity under the provisions of Section 911 of the Public Utility Law, this agreement shall only become effective upon the approval thereof by the Commission.

Whereas, By letter dated February 3, 1949, The Edgar J. Whereas, The Civic Light Opera Association of Greater Pittsburgh has expressed its willingness to utilize the outdoor theatre for the production of summer light opera; Now, therefore,

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor, the Director of the Department of Parks and Recreation and the Director of the Department of Public Works be and they are hereby authorized and directed to enter into an agreement with the Kaufmann Charitable Trust, the Allegheny Conference on Community Development and the Civic Light Opera Association of Greater Pittsburgh containing the following provisions:

1. The City will furnish lands suitable as a site for the project. Subject to adjustment as provided in Paragraph 8 hereof, the cost of acquiring any such lands not presently owned by the City will be paid by the City. The approval of the Kaufmann Trust on the final selection of a site shall be obtained. The cost of any land acquired by the City shall be deducted from the City's total obligation under this agreement.
2. The Conference will use its best efforts to arrange for the donation to the City of any privately owned lands which may be necessary or suitable for the Project.
3. The Conference, as soon as feasible after the execution hereof, will prepare a form of contract between the Conference and Mitchell & Ritchey, Architects, of Pittsburgh, Pennsylvania, (hereinafter referred to as "Architects"), for architectural services in connection with the Project. Such services will include preliminary studies, plans and estimates for the Project, including studies of the practicability and cost of a flexible roof, and such working drawings, specifications and related estimates as will be needed for use in the taking of bids. Said form of contract shall specify the fee payable to the Architects for the aforesaid services, shall be subject to the approval of the Director of the Department of Parks and Recreation, the Conference and the Kaufmann Trust, and upon such approval, shall be executed in the form approved. Thereupon the Kaufmann Trust agrees that it will pay to the Conference from time to time sufficient funds to enable the

Conference to make the payments to the Architects when and as required by said contract.

4. The Conference, with the approval of the Director of the Department of Parks and Recreation and the Kaufmann Trust, and having received from the Kaufmann Trust sufficient funds to cover its financial liability assumed thereunder, shall enter into a contract with an engineering firm to obtain a complete and accurate survey of the approved building site, including test borings, grades, location of trees, lines of streets, pavements and adjoining properties, and any other work incidental thereto.

5. Upon receipt of the preliminary studies, plans and estimates from the Architects and approval thereof by the Conference, the Conference will submit the same to the City and to the Kaufmann Trust for their approval, approval in each case to be evidenced by appropriate signatures on behalf of the Director of the Department of Parks and Recreation and the Director of the Department of Public Works of the City, the Conference and the Kaufmann Trust.

6. Upon receipt of the working drawings, specifications and related estimates from the Architects and approval thereof by the Conference, the Conference will submit the same to the City and to the Kaufmann Trust for their approval, approval in each case to be evidenced by appropriate signatures on behalf of the Director of the Department of Parks and Recreation and the Director of the Department of Public Works of the City, the Conference and the Kaufmann Trust.

7. Upon the approval of working drawings, specifications and related estimates, the City will advertise for bids for the construction of the Project.

8. Upon receipt of bids and decision of the parties, which decision, in so far as the City is concerned, shall be reached by the Directors of the Department of Parks and Recreation and the Department of Public Works only after consultation with City Council, hereto to proceed with

the construction of the Project and prior to the awarding of the contract, the Kaufmann Trust, from its own records on the basis of appropriate proof of expenditures by the Conference, will certify to the City the amount expended by the Kaufmann Trust as hereinbefore provided (such amount being hereinafter referred to as the "Kaufmann Advances"), and the City will certify to the Conference and the Kaufmann Trust the amount, if any, expended by the City for the acquisition of land as hereinbefore provided (such amount being hereinafter referred to as the "City Advances").

9. If the low bid received (or the aggregate of low bids in case the work is divided into more than one contract) is less than the amount of \$1,000,000 minus the sum of the Kaufmann Advances, the City Advances, and the estimated fee of Architects for the supervision of the construction as specified in the form of contract provided for in Paragraph 10 hereof, the Kaufmann Trust will pay to the Controller of the City an amount equal to the difference between \$500,000 and the Kaufmann Advances, and the City will pay to the said Controller an amount equal to the difference between \$500,000 and the City Advances, if any, both such amounts to be held by the said Controller in a trust fund to be drawn upon by the City, from time to time, to finance construction of the Project, including the payment of fees of contractors and of Architects for supervision of the Project and for additional fees, if any.

10. After the making of the payments into the trust fund as herein provided, the City will enter into contracts with the successful bidder, or bidders, for construction of the Project, and with the Architects for supervision of the Project, which supervision shall include the usual services supplied by an architect to his client in similar cases, and provision for payment of the Architects' fees for such supervision and the additional fees, if any, of the Architects. Such contracts shall contain the customary provision that payments shall be made only upon architects' certificates (cop-

ies of which certificates shall be furnished to the Conference) and shall provide that payment shall be made by the Controller of the City from the aforesaid trust fund. The City and the Conference will work in close cooperation in connection with the Project, and the Conference will keep the Kaufmann Trust advised of the progress of the Project and will consult with the Kaufmann Trust concerning the Project.

11. In the event that, upon the completion of the Project, any balance remains in the aforesaid trust fund, refunds shall be made to the Kaufmann Trust and the City in such amounts that the aggregate contribution (including without limitation the City Advances and the Kaufmann Advances) of each to the Project shall have been equal.

12. In the event that any of the approvals hereinbefore provided for shall be withheld by any party, or if it should be determined at the time of taking bids for construction that the total cost of the Project, including the City Advances and the Kaufmann Advances, will exceed \$1,000,000, the Project shall not be completed and no expenses shall thereafter be incurred by any party pursuant hereto. In the event that the Project will not be completed, the Kaufmann Trust will have the right to use the preliminary surveys, plans and estimates and the working drawings, specifications and related estimates pertaining to the Project.

13. Upon completion, the City will take and retain title to the Project and operate the same under the supervision of the Department of Parks and Recreation.

14. The City will grant the Opera Association such use of the Project as may be required by the Opera Association for the presentation of musical and theatrical performances during the summer months of each year (i. e., from approximately the first of June to approximately the fifteenth of September), and the year-around use of such buildings in the Project as may be required by the Opera Association

without payment of rent (or for a nominal rental in case such a charge is required by law), and the Opera Association shall have the right to charge reasonable fees for admission. The City and the Opera Association shall enter into an agreement with respect to the operation of the Project.

15. The maintenance costs shall be paid out of the funds derived from the operation of the Project. In the event of a deficiency, the maintenance costs shall be borne by the City for the year during which the deficiency exists, provided, however, that the aforementioned agreement between the City and the Opera Association shall provide reimbursement by the Opera Association of the maintenance expenditures made by the City from the Opera Association profits of succeeding years (such profits to be computed after giving effect to the Opera Association's repayment of all advances which its guarantors may make to it in 1949 and thereafter).

16. The Opera Association agrees to use the Project for the purposes herein set forth.

AN ORDINANCE — Authorizing an Agreement with the Allegheny County Sanitary Authority for the preparation of construction plans for a sewage disposal system and providing a loan of \$2,000,000 therefor.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to execute, for and in behalf of the City of Pittsburgh, an agreement with the Allegheny County Sanitary Authority, in substantially the following form:

AGREEMENT

THIS AGREEMENT, dated for convenience of reference as of the first day of _____, 1949, by and between

ALLEGHENY COUNTY SANITARY AUTHORITY

(hereinafter sometimes called "Sanitary Authority"), a body corporate and politic of the Commonwealth of Pennsylvania duly created and existing under the provisions of the Municipality Authorities Act of 1945, as amended, and

CITY OF PITTSBURGH

(hereinafter sometimes called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

WITNESSETH:

Whereas, The City has heretofore constructed certain sewers but does not have facilities for the treatment and disposal of sewage, and sewage entering the sewers of the City is being discharged without treatment directly into the rivers and other streams which flow through the City; and

Whereas, Numerous adjacent municipalities, with the consent of the City, have connected their sewers with the City's sewerage system, and have thus also been discharging their untreated sewage into such rivers and streams; and

Whereas, Additional adjacent municipalities discharge their sewage without treatment into such rivers and streams, and such sewage can be collected and treated in a single disposal plant for the Pittsburgh area without increasing the cost of service to the people of Pittsburgh; and

Whereas, There are many industries in the City and such adjacent municipalities which are discharging large quantities of industrial wastes without treatment either directly into such rivers and streams or indirectly through the sewers of the municipalities in which they are located; and

Whereas, Such discharge of untreated sewage and industrial wastes has polluted the rivers and streams and such pollution has made the rivers and streams undesirable as sources of public water supply and unsafe for bathing, boating and other recreational

purposes; is detrimental to business and commercial interests in the Pittsburgh area; and constitutes a serious menace to the health and safety of the inhabitants of the City and of such adjacent municipalities; and

Whereas, The Sanitary Water Board of the Commonwealth of Pennsylvania (hereinafter sometimes called the "State Board"), acting to abate stream pollution, pursuant to authority conferred upon it by the Act of the General Assembly of Pennsylvania approved June 22, 1937, P. L. 1987, as amended, has ordered and directed the City and such adjacent municipalities

(a) to discontinue the discharge of untreated sewage into the waters of the Commonwealth, and

(b) to submit, either alone or jointly with any other mutually interested municipality or municipalities, construction plans and specifications for the necessary sewers, pumping stations and treatment works to collect and convey its sewage to a suitable site or sites and provide treatment thereof; and

Whereas, The Sanitary Authority was created by the County Commissioners of Allegheny County to collect, transport, treat and dispose of the sewage and industrial wastes of all the municipalities in the County and thus effect compliance by them with the orders of the State Board; and

Whereas, The Sanitary Authority, after extensive studies and investigations, has submitted a number of alternative projects which would enable the City to solve its sewage treatment problem and to comply with the order of the State Board; and

Whereas, Of the projects so submitted to the City by the Sanitary Authority, the City has decided to accept the one which will serve an area comprising the City and all or portions of fifty-eight adjacent municipalities, which project the City believes to be the best obtainable consistent with reasonable cost to the people of Pittsburgh; and

Whereas, The City is willing to finance the preparation by the Sanitary Authority of complete detailed construction plans and specifications for the sewage disposal system outlined in the accepted project and more fully described hereinafter, by loaning to the Sanitary Authority the sum of \$2,000,000, or as much thereof as may be required; and

Whereas, The Sanitary Authority is willing to undertake the preparation of such construction plans and specifications, and to repay all City loans and advances out of the proceeds of the sale of its first bonds;

Now, Therefore, In consideration of the premises and the undertakings of each party to the other, the parties hereto, for themselves, their successors and assigns, mutually covenant and agree as follows:

1. The Sanitary Authority will promptly and with due diligence prepare complete detailed construction plans and specifications for a Sewage Disposal System adequate for the present and foreseeable future needs of an area (hereinafter sometimes called the "service area") comprising the City of Pittsburgh and all or portions of fifty-eight adjacent municipalities, as shown on the map marked "Exhibit A" attached hereto and made a part hereof, subject to the provisions of Paragraph 4 of this Agreement. The names of said adjacent municipalities are listed on "Exhibit B" attached hereto and made a part hereof.

As used in this Agreement the term "Sewage Disposal System" shall mean and include:

(a) A system of collecting or intercepting sewers located approximately as shown on said Exhibit A, which sewers shall be of adequate capacity to accommodate the maximum quantities of sewage and industrial wastes (such as may be acceptable for treatment together with sewage) reasonably anticipated from the entire service area for the year 2000, together with appurtenant pumping stations, control works and all other facilities and

equipment necessary for the interception of all existing sewage outfalls along the said collecting or intercepting sewers and for the transportation to the treatment plant of the sewage discharging therefrom.

(b) A sewage treatment and disposal plant on the suitable site on the right bank of the Ohio River beneath the McKees Rocks Bridge at the location shown on Exhibit A hereof. The plant shall be adequate to handle the maximum quantity of sewage and acceptable industrial wastes reasonably anticipated from the entire service area for the year 1965, complete with all facilities and equipment necessary to provide the degree of treatment thereof which the law now requires and to provide satisfactory disposal of the residue. The plant shall be of such design as to permit the expansion thereof to handle the maximum quantity of sewage and wastes reasonably anticipated for the year 2000, and to provide the maximum degree of treatment thereof, and shall be so laid out on such designated site as to permit such expansion.

The work of the Sanitary Authority shall comply with the highest engineering standards, and the design of the Sewage Disposal System shall be such as will provide the most desirable, reliable and efficient structures and equipment obtainable without excessive or unjustified cost. Consulting engineers engaged by the Sanitary Authority to design portions of the Sewage Disposal System shall be competent and experienced, and their work shall be subject to approval by the Sanitary Authority.

The plans and specifications for the entire Sewage Disposal System shall be completed not later than December 31, 1951, and shall be submitted for approval to the Sanitary Water Board of the Commonwealth of Pennsylvania (the "State Board"). Any changes in such plans and specifications required by the State Board shall promptly be made by the Sanitary Authority, to the end that the same shall receive the

full and final approval of the said State Board.

All plans, drawing, specifications and other data prepared by the Sanitary Authority under this Agreement, and all similar material submitted to the Sanitary Authority by consulting engineers, shall be the property of the City of Pittsburgh.

2. In consideration of the services to be performed by the Sanitary Authority under this Agreement, the City will advance to the Sanitary Authority, as a loan to be repaid with interest as hereinafter set forth, the sum of Two Million (\$2,000,000) Dollars, in installments, as follows:

Five Hundred Thousand (\$500,000)
Dollars on or before February 1, 1950;

Two Hundred Fifty Thousand (\$250,000) Dollars on or before May 1, 1950;

Two Hundred Fifty Thousand (\$250,000) Dollars on or before August 1, 1950;

Section 1. That the Mayor and the Director of Public Works of the City of Pittsburgh be and they are hereby authorized and directed to enter into a general agreement with the Bell Telephone Company of Pennsylvania, providing for, inter alia, granting to the City of Pittsburgh the right to attach street light fixtures on poles which the Bell Telephone Company owns or on which they have certain rights within the City and containing substantially the following provisions:

(A) Whenever the City desires to attach a street light fixture to any of said poles, it shall make written application to the Telephone Company for such privilege, using therefor an application form setting forth the location of the pole and the space to be occupied thereon by the fixture. If the attachment in the location and manner indicated is approved by the Telephone Company, it shall endorse the form so to indicate and return it to the City. If the proposed attachment is not approved or rearrangement of facilities or relocating of the pole is deemed necessary, the form shall be filled in so to indicate and returned. If such work of rearrangement or relocation is authorized by the City, it shall so indicate and return the form for endorsement. Upon completion of the form and any necessary work, the City shall have the right to make the attachment as provided in the Application-Permit and in accordance with and subject to the provisions of the agreement. The City

shall also give the Telephone Company written notice when any street light fixture is permanently removed from a pole, using therefor a Notice of Removal form.

(2) Whenever, in order to provide suitable space for a street light fixture which the City proposes to install, it is necessary to replace a pole in which the Telephone Company holds entire or partial equitable ownership, Telephone Company shall erect or cause to be erected a new and adequate pole and the City shall pay the Telephone Company for its proportional part of the sacrificed life of the existing pole.

(3) Whenever, at the request of the City to provide for a street light fixture, it is necessary to change the location of a pole in which the Telephone Company holds entire or partial equitable ownership, the City shall bear the entire cost of such relocation.

(4) Whenever, in any case where the City maintains a street light fixture on a pole and the Telephone Company or any other party to whom the Telephone

(F) Nothing herein contained shall be construed as affecting any rights or privileges on said poles previously conferred by the Telephone Company on others not parties to this agreement, nor shall the right of the Telephone Company be restricted in the granting of such rights and privileges in the future.

(G) The City shall not assign or otherwise dispose of its rights or privileges under the agreement to any other party without the written consent of the Telephone Company.

(H) If the City shall at any time fail to comply with any of the terms of the Agreement, and such failure shall continue for sixty (60) days after written notice of such failure shall have been served upon it, then all rights of the City as to the pole or poles in regard to which such failure shall have occurred shall forthwith cease and Telephone Company shall have the right to remove therefrom the fixtures of the City; provided, however, that nothing herein shall be construed to prevent the Telephone Company from disconnecting, repairing or removing at any time after notice to the City and its failure to act, any fixture which it deems dangerous to the safety of its facilities or service. Any such disconnection, repair or removal shall be at the expense of the City.

(1) It is understood and agreed that the agreement is entered upon by the parties hereto subject to the requirements of Section 911 of the Public Utility Law and that the agreement shall become effective as soon after the date first above written as is possible under said requirements. The agreement may be terminated by either party at the end of three (3) years after the date first above written, upon one (1) year's notice in writing to the other party, provided that if not so terminated it shall continue in force thereafter until terminated by either party at any time upon one (1) year's notice in writing to the other party as aforesaid.

Whereas, The Pittsburgh Housing Authority, as long as it was permitted to do so by the Congress, paid to the local taxing bodies 10 per cent. of the shelter rent received for its low-income dwellings as payments in lieu of taxes; and,

Whereas, The Eightieth Congress, in an effort to destroy or diminish local support for low-rent housing, forbade payments in lieu of taxes for projects receiving Federal low-rent subsidies, and the Comptroller General rule that this prohibition applied to all projects for which a subsidy agreement existed, without regard to the actual disbursement of subsidy funds; and,

Whereas, The action of Congress and of the Comptroller General was protested by the City of Pittsburgh, acting through the United States Conference of Mayors, and by the Pittsburgh Housing Authority, as a breach of an established agreement on the part of the Federal Government; and,

Whereas, It was agreed by officials of the National Government that remedial legislation would be introduced in the Eighty-first Congress, providing retroactively for the payments denied to the local taxing bodies during 1948, and establishing a firm base for such payments in the future; and,

Whereas, Such payments in lieu of taxes, totalled \$60,000.00 in 1947 for Pittsburgh alone, with corresponding amounts paid to the School District and the County Government; and,

Whereas, The Public Housing Bill now pending in Congress provides that a flat 5% of the shelter rent received by Federal Low Income Dwellings be paid to the local taxing bodies in lieu of taxes and does not permit the payment of a greater sum when feasible; and,

Whereas, The aforesaid provision of the pending Bill will result in a decrease of the amounts formerly received by the City of Pittsburgh, the School District of the City of Pittsburgh and the County of Allegheny as payments in lieu of taxes; Now, Therefore, be it

Resolved, That the Council of the City of Pittsburgh does respectfully petition the Congress of the United States to enact such remedial legislation at this session, thereby correcting an injustice and restoring the sanctity of Federal agreements, and to provide by appropriate legislation that payments to local taxing bodies in lieu of taxes be required in the amount of 5% of the shelter rent received from Federal Low Income Dwellings and permitted in an additional sum not to exceed a total of 10% of the shelter rent received from Federal Low Income Dwellings, and that this resolution shall be transmitted to the presiding officers of the House of Representatives and the Senate; to the Hon. Francis J. Myers and the Hon. Edward Martin, Senators from Pennsylvania; and to the members of the House of Representatives from Allegheny County.
